Farmers' Department.

Hints for the Season. I. Drained soils should be plowed as early as possible; and other land, if not wet. Clay soils should never be plowed when wet, as the land will be filled with lumps during the whole Summer, if this is done, and will bear a striking resemblance to a deserted brick-yard, until the frosts of the next winter pulverize them.

II. Do not let this month pass before you have all your forces in good colors.

you have all your fences in good order. If this necessary work is left over for a while, it may not be done at all, and great loss will be the result. Poor fences show an indolent farmer, while good ones give evidence of thrift.

III. Keep making manure, and commence carting to the fields where needed. Recollect that much of the land in Ohio is exhausted, or never was rich, and will be benefited by liberal applications from the barn-vard. When manure is wasted, it is throwing away money, as upon it, in mamy cases, depends the number of bushels of wheat or corn you will have for sale in the future.

IV. Select the proper varieties grains and seeds for sowing and planting. Get the best-not necessarily the newest -even if you should have to pay a higher price for them. It will repay you in better quality or increased quantity next fall, at an advanced price. The best developed

pecially breeding females. Give shelter and bedding, with abundance of good, healthy food. We do not believe that cattle or mea grow bigger, stronger and healthier, by being exposed to the inclemency of the weather all the time, especially when coupled with an empty

VI. Sow clover on a light snow, when the is little frost; about eight quarts of need to the acre is enough.

To all Boys that want to be Farmers.

What is a farmer? Is it a man who works on a farm? No; he is a farm laborer. Is it one who owns a farm? No; hand, he is a landlord or landowner. Is a farmer one who manages a farm? Yos, he
may be owner or not; he may even be
only a hired man, but if he has the manone who manages a farm? It is a farfree in the first of free, was the wife of Woden, or Odin;
and next to him the most revered divinity
among the heathen nations. In the most
off to her in 17 acres therein, which has been set agement, he is the farmer. The difference between the laborer and the farmer is, that one must think and plan and bear To her the sixth day of the week was conthe responsibility, while the other need only work. Now, there is a great pleasure in this thinking, reasoning, planning, and having things come out right. There are a great many farmers in the world who are only laborers on their own farms. her left. Don't grow up to be one of them, but

To begin, get your father to set apart a piece of ground for you now, and before spring comes have all your plans laid, how you will till it. Get the promise of some manure, and then if you see good things was a pail of water, wherein were flowers for manure wasting—kitchen slops, soap suds, etc., save them; we will tell you how to make use of it before the time.

The appellation given to the day of his

ou want to be farmers, begin now

return. To obtain the largest fruit and the greatest yield, it should be planted in a rich, well-prepared soil, which should receive good cultivation during summer, or what is better, if a heavy mulching of straw or coarse manure is applied in the spring, so as to keep the ground moist, and prevent the growth of weeds, it will produce a large crop of superior fruit. The current being a gross feeder, a good coating of manure should be forked in about the root, every year or two. Being among our earliest fruit, it should be used in every family. It has an agreeable acid flavor, and is the well tried varieties which have proved worthy of cultivation, are the red Dutch white Dutch, Cherry and white Grape. The greatest vigilance will be needed to guard red Dutch, however, is one of the best against imposition by these frauds.

WELL AND SPRING CLEANING .- As spring is approaching, we earnestly advise all persons who use well water and spring religious excitement, attempted to destroy thoroughly cleaned out, and then washed tea-kettle. She was so badly injured inout in early May and also during October, ternally, that no hope was entertained of as there is strong reason to believe that her recovery. the settlings, which have accumulated, including decayed vegetation, impart their disease engendering qualities to the water, treaties have been negotiated between the and thus originate some of the most dan- ludian tribes and the United States Govgerous forms of typhoid fever, at a time of the year when the weather is so cool as to 174.184.710 across of land, of which 19.342.

Fever and Ague,

Fever and Ague,

from which mankind suffer over a large part of
the globe, is the consequence of a diseased action
in the system, indused by the poisonous miasm of
vegetable decay. This exhalation is evolved by
the action of solar heat on wet soil, and rises with
the watery vapor from it. While the sun is below
the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the
lungs into the blood. There it acts as an irritating
poison on the internal viscers and excreting organs
of the body. The liver becomes torpid and fails to
secrete not only this virus, but also the bile from
the blood. Both the virus and the bile accumulate
in the circulation, and produce violent constitutional disorder. The spleen, the kidneys, and the
stomach sympathize with the liver, and become
disordered also. Finally, the instincts of our organism, as if in an attempt to expel the noxious
infusion, concentrates the whole blood of the body
in the internal excretories to force them to east it
out. The blood leaves the surface, and rushes to
the central organs with congestive violence. This
is the CHILL. But in this effort it fails. Then the
FRYER follows, in which the blood leaves the central organs and rashes to the surface, as if in
another effort to expel the irritating poison through
that other great excretory—the skin. In this
also it fails, and the system abandons the attempt
exhausted, and waits for the recovery of strength
to repeat the hopeless effort another day. These
are the fits or paroxysms of FRYER AND AGUE.
Such constitutional disorder will of course undermine the health if it is not removed.

We have labored to find, and have found, an
antidote,

Ayer's Ague Cure,

which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the body. As it should, so it does cure this afflicting disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health although exposed to the disease. Consequently it not only cures, but protects from, the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked Ague, Periodical Headache, or Bilious Headache, Bilious Fevers, Neuralgia, Rheumatism, Gout, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitations, Painful Affections of the Spicen, Hysterics, Colic, Paralysis, and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "Agus Cuar" removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the excreditions of account.

removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the excretories to expel the virus from the system; and these organs by degrees become habited to do this their office of their own accord. Hence arises what we term acclimatation. Time may accomplish the same end, but often life is not long enough, or is sacrificed in the attempt, while this "AGUE CURIN" does it at once, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of diseases which are caused by the minsmatic infection, than any other which has been discovered; and it has still another important advantage to the public, which is, that it is cheap as well as good. it is cheap as well as good.

PREPARED BY DR. J. C. AYER & CO. LOWELL, MASS. PRICE ONE DOLLAR PER BOTTLE.

Ayer's Cherry Pectoral has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

We desire to call attention to a letter from Dr. Joshua F. Bridge, on "Health of American Women," in another column. He treats the subject in an able manner, and his skill and medical judgment may be relied upon.

From the Albany Evening Express.

Marshall's Uterine Catholicon has proved to be fully as valuable as it is claimed to be in many severe tests made by medical gentlemen and others. Dr. Bridge is a regular physician of very fine attainments, a man of great judgment and discrimation, a judicious and highly successful practitioner, in all discusses, especially those of women and children.

From Physicians.

From Physicians. Marshall's Uterine Catholicon will certainly cure all the diseases for which it is recommended. In the worst cases I have ever met with, Mar-shall's Uterine Catholicon is a certain and safe

emedy.
MARSHALL'S UTERINE CATHOLICON MARSHALL'S UTERINE CATHOLICON is unhesitatingly offered as a reliable remedy for all those complains to which every woman is liable, and which gradually affect the mind as well as the body, so that to think, talk or work becomes alike a source of suffering, if not an impossibility. Among other complaints for which the Catholicon is a remody is the Falling of the Womb, Whites. Suppressed, Irregular or Painful Menstruation, Bloating, Inflammations and Diseases of the Kidneys or Urinary Organs, Retention or Incontinence of Urine, Heartburn, Costiveness, Norvousness, Fainings, Palpitations, Cramps. Disturbed Sleep, and all troubles, organic or sympathetic, connected with the uterine organs.

Ladies who are troubled with any of the above symptoms, or with spine, liver or lung complaints, are invited to address Dr. BRIDGE, with full confidence that they will find relief. Marshall's Uterine Catholicon is not a quack medicine, but its ingredients have been made known to the Medical Colleges, and they are at the service of any respectable physician in the country.

The price of Marshall's Uterine Catholicon is One Dollar and a Half per Single Buttle.

WEST BEDFORD, Coshocton Co., May 14, 1857.

One Dollar and a Half per Single Bottle.

West Bedford, Coshocton Co., May 14, 1857.

Mr. H. B. Kingsley, Sir.—I have been selling the medicines of the Graffenberg Company for the last ten years, and have invariably found them to give good satisfaction; and the pills I have sold to a good many families as regularly as their tea and coffee, and with my trade they become a staple article. Marshall's Uterine Catholicon is a medicine that has done a great amount of good in female diseases. One lady I sold it to told me she had received more benefit from one bottle then she did from a long course of medical treatment by the most skilful physicians.

Yours truly, JAMES WILSON.

MRS, ROBINSON'S CERTIFICATE. Vernox, Trumbull Co., May 1st, 1843.

This certifies that I have been in very poor health for years, and found little or no relief after employing a number of physicians. My disease was Frologis Uteri. I had been reduced by that and Flouror Albus until I had been reduced by that and Flouror Albus until I had become ulcerated to a considerable extent. By the advice of Dr. G. W. Bushnell I procured and took six bottles of Marshall's Uterine Catholicon which enabled me to attend to my husband in his last sickness until he died, which was about a year since. I have taken three bottles since his death, which has made me able to labor and support my family of three VERNON, Trumbull Co., May 1st, 1843. taken three coules since als death, which has made me able to labor and support my family of three children. The Catholicon has nearly restored me to health. It is the only thing that has mitigated my suffering for which I fell very grateful. MARY E. ROBINSON.

STOMACH BITTERS. It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exerciso of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has in-troduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfac-tion to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple pro-

cess of strengthening nature, enable the system to triumph over disease. For the cure of Dyspepsia, Indigestion, Nau-sea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stemach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these

Bitters have no equal.

Diarrhosa, dysentery or flux, so generally co barracea, dysentery of hux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to decrease and the disease. be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as pe directions on the bottle. For this disease every physician will recommend Bitters of some kind then why not use an article known to be infal lible? All nations have their Bitters, as a prenot to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

Fever and Ague.—This trying and proved ing discovered the second certificates will be ital required.

All newspapers giving the above advertisement 13 insertions, will be paid \$8, in Gold Pens, Jewelry, Books, or Music, payable within 30 days after receiving first number containing the advertisement.

FEVER AND AGUE.—This trying and provok-ing disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nauses nor offend the palate, and render un-necessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is re-moved as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfectled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nour-ishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system.
Ladles should by all means try this remedy
for all cases of debility, and, before so doing,
should ask their physician, who, if he is
acquainted with the virtue of the Bitters, will

mmend their use in all cases of weakness CAUTION .- We caution the public against using any of the many imitations or counterfeits, but as for HOSTETTER'S CELEBRATED STOMACH BITTERS and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

AP Propared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany. For Sale by A. COOK, and JOHN NICHOLS, in Chardon,
